The Holiday Market is outdoors! Price: **\$75 per booth**, including electricity. If you **bring your own generator, it's \$50** (and sharing is appreciated).

Spaces are 10' deep by 12-14' wide (same as our Day in the Country event). You must provide your own tables and set-up. Keep in mind, it can be rainy in December, so you should be prepared to provide your own tent/canopy and weights in case of wind. We are working to provide electricity, so you can bring holiday lights for your booth. Each vendor may use 2 standard strings of lights, plugged into each other. You will need an extension cord as well!
